

Disposable Wrist Straps 2209

Cost-effective and reliable static protection for less money.

Additional Information

Suited for shipment with components to ensure protection at the receiving end. May also be used for short-term use in the plant for visitors and others who don't need the durability of a reusable strap. The hypo-allergenic adhesive provides 360 degree contact with the skin to minimize skin-to-band resistance. Adhesive on the copper foil adheres to any convenient electrical ground.
