

## Model: AMB-5KV-D 5000V Insulation Tester

- Tests insulation of wires, cables, transformers, electrical motors and generators
- Comes as a complete kit including test leads and PC software
- Built in automatic voltmeter up to 5000V warns against hazardous energized systems
- Programmable setups of test voltages and timers
- Performs the dielectric absorption ratio test
- One testing instrument for low and high voltage systems
- Internal memory, measurements can be stored for future reference
- Data download to PC
- Rugged, durable case

### FEATURES

<b>UPC/DCI:</b>	0 95969 36614 4
<b>Size:</b>	19.25x15.00x8.50 inch
