

ProVision®

"See-It, Fix-It!"®

Available in 5 Cable Lengths up to 96"

ProVision® allows you to look behind walls, down into drains, inside engines or hundreds of other places without costly demolition or disassembly! Based on innovative fiberoptic technology, the flexible cable fits into holes as small as 1/4" in diameter.

Designed for up close focusing in tight places, the high resolution lens provides a clear image of objects as close as 3/4" away while providing a wide, 40° field of view. A powerful lamp illuminates dark crevices on-demand with the push of a button conveniently located on the handle.

Light Trigger Focus Ring

Light Bulb & Batteries Inside

Shaft Diameter 2 Sizes Available

0.4"/10.5mm

0.23"/5.8mm

Operation:

- Grip handle with one hand while looking through the eyepiece and rotate focus ring until image appears clear
- Maneuver cable into position with the other hand
- For dark areas, activate light by pressing and holding down light activation button on top of handle

Batteries:

- ProVision uses two (2) AA batteries (not included)
- To install the batteries, lift the door at the shaft end of the ProVision to reveal the battery compartment
- Batteries must be inserted with both contacts facing the same direction
- Snap the compartment door closed

Changing Light Bulb:

- Open battery door
- With fingertips pull end of bulb out
- Taking great care not to touch glass portion of bulb, slide in new bulb with white Teflon® washer
- Close cover

WARRANTY: ProVision is warranted to be free from defects in material and workmanship for a period of one year from the date of purchase. ProVision will repair or replace a defective unit at our option. This warranty excludes damage caused by misuse, accidents or modifications of the product. Warranty is void if the user opens the handle for any reason. Please call 888-398-1522 for a Return Authorization number.

PRECAUTIONS:

- Avoid over-bending the shaft. (Over-bending will void warranty)
- Do not open the handle for any reason. There are no user serviceable parts in the handle. Batteries and the light bulb are accessible via the door on the shaft end of the handle. (Opening the handle will void warranty)
- Do not submerge the handle in any liquid.
- Do not immerse the shaft in any solvent for extended periods.
- Wipe clean after using in diesel fuel and gasoline.
- Do not use in the proximity of live electrical circuits.
- Do not use in explosive environments.
- Not intended for medical use.
- Storage and operating temperatures: -10 to 120°F.
