## Pick-Up Tool

### Characteristics:

- **Specialized tool**  
Used for safe pick-up of SMD components on circuit boards
- **Small, compact, lightweight**  
Perfect for getting into small places
- **ESD protective**  
Will not cause electrostatic discharge
- **Includes angled lifting needle and straight lifting needle**  
Versatile
- **Lifting needles and suction cups available separately**  
Purchase exactly what you need
- **Handle made from ESD protective silicone**
- **End caps are ESD protective plastic**
- **Made in America**  
Superior quality

### Specs:

- **Length 2" without needle**
- **Lifting needle capacity:**  
500 grams

P/N	Description
35635	Vacuum Handling Tool, 3-1/4" tall
35636	Straight Lifting Needle, 1-1/8" tall, includes 1/8" Cup
35637	Angled Lifting Needle, 1/8" tall, includes 1/4" Cup
35638	3/8" ESD Protective Suction Cup
35639	1/2" ESD Protective Suction Cup
