# Precautions

## ■ Mounting

Mount the D2F switch onto the PC board as shown in the following diagram, using 2-pitch (2 x 2.54 mm) terminal spacing.

## ■ PC Board Machining

## ■ Mounting Hole Machining

## ■ Dimensions

When soldering, use 6:4 solder and a 60 W soldering iron, and complete soldering within 3 seconds. After soldering, do not apply external force to the soldered area for about 1 minute.

Allow sufficient insulation distance between terminals and between terminals and ground.

## ■ Dimensions

The use of molded components is recommended for mounting purposes.

## ■ Molded Pin Mounting Diagram

When screw mounting, use M2 screws together with washers. Fasten the screws applying 0.8 to 1 kg-cm tightening torque.
