## Single output 20W to 45W AC/DC External Adapters

So small it's hardly there. Packing 8 watts per cu. inch the EOS ZVC45 "Micro Z model" adapters range in power from 20 watts to 45 watts and are available in popular voltage outputs from 5 volts to 24 volts.

Applications include low power LAN/WAN routers, hubs and switches, industrial products, computing equipment, multi-media gear and many general electronics applications. Millions are in operation with leading product brands. These small package, big power adapters provide greater than 90% efficiency converting AC power to DC. The cell phone size *Micro Z* measures a mere 3.50" x 1.76" x 0.967" and weighs under 6 ounces. The ZVC45 *Micro Z* adapters feature auto ranging AC input from 90v to 264v, operating temperature of 0 to 40 degrees C and have worldwide safety and agency certifications and are RoHs compliant. Our factory also is ISO140001 environmentally approved.
