

MicroMapper™ Pro VDV Cable Tester

Fluke Networks enhances its offering in cable test solutions with the introduction of the MicroMapper™ Pro, an easy-to-use voice-data-video (VDV) cable tester. MicroMapper™ Pro is a simple VDV cable tester, designed to test termination and length reliably and quickly, thus speeding installation time and reducing callbacks.

MicroMapper™ Pro represents an exciting addition to the proven Fluke Networks cable testing product line. It simplifies every aspect of the testing and verification process. From its “quick-check” test for twisted pair and coax, to its built-in analog toner for locating cables, MicroMapper™ Pro provides technicians the confidence to perform their jobs faster and more accurately.

Fluke Networks' MicroMapper™ Pro VDV Cable tester simplifies voice/data/video cable testing. That's Network SuperVision.™ That's Fluke Networks' promise to you.

Simplify installations

MicroMapper™ Pro simplifies testing, providing a full wiremap for twisted pair and coax connectors including split pair and distance to break. It features a “quick-check” test to confirm cable wiremap to TIA568A/B specifications and displays all results on a large LCD screen.

Eliminate awkward test adapters

Tired of losing or breaking all the adapters needed for testing the various voice, data, and video media types? MicroMapper™ Pro simplifies testing with built-in twisted pair and coax support. Both the main unit and the far-end identifiers can be used to test twisted-pair and coax outlets right out of the box.

Quickly locate cables

MicroMapper™ Pro features built-in analog toning to locate and isolate wire pairs during installation.

Replace tools less often

MicroMapper™ Pro is a tool for any testing environment. It is a durable tester that comes in a small, user-friendly package, making it a convenient tool for any job.

Carry fewer tools

The MicroMapper™ Pro Kit provides comprehensive testing, locating, and ID tagging with the MicroMapper Pro™ VDV Cable Tester with a built-in analog toner, the Pro3000™ Probe, and eight included cable IDs.

MicroMapper™ Pro VDV Cable Tester

Ordering Information

Model	Description
 MMP-50	MicroMapper™ Pro VDV Cable Tester MicroMapper™ Pro VDV Cable Tester, #1 Cable ID, F-type adapter, multi-language Getting Started Guide, batteries
 MMP-KIT	MicroMapper™ Pro Kit Includes: MicroMapper™ Pro VDV Cable Tester, Pro3000™ Tone Probe, # 1-8 Cable IDs, F-type adapter, multi-language Getting Started Guide, batteries
 MMP-TTK	MicroMapper™ Pro Termination Test Kit Includes: MicroMapper™ Pro VDV Cable Tester, #1 Cable ID, F-type adapter, multi-language Getting Started Guide, Pro3000™ Probe, IS50 Pro-Tool™ Kit, batteries, and deluxe Fluke Networks carry case

Accessories	Description
 MMP-IDK28	MicroMapper™ Pro ID Kit #2-8
 MMP-ID1	MicroMapper™ Pro ID #1
 26100900	Pro3000™ Probe

Specifications

Test Connectors	Twisted-pair: UTP, FTP Coax: F-connector for 75 Ω , 50 Ω , 93 Ω cables
Cable Tests	Length (350 m or 999 ft.), wiremap to TIA-568A/B standards, remote ID locators
Tone Generator	Analog tones: [400Hz, 1KHz]
Power Source	Battery type: 6 AAA alkaline batteries
Dimensions	5.94 x 2.83 x 1.38 in (15.09 x 7.19 x 3.51 cm)
Weight	.60 lbs (.27 kg)
Warranty	One year
