

i5S AC Current Clamp

Expand the use of your Fluke 430 series power quality tool with this 5 A ac current clamp, specially configured to provide low current accuracy while taking measurements on secondary current transformers.

- Low level current clamp measures up to 5 A ac
- Compact shape makes transporting and storing convenient; the clamp measures only 116 x 43 x 23 mm (4.6 x 1.7 x .9 inches)
- Take accurate readings without breaking the circuit
- CAT III 600 V (For insulated conductors only)
