## MediaFlex Plate

AX101748 MediaFlex Single gang Plate

MediaFlex Plates are one part of the comprehensive line of plates and inserts that snap together to create a full line of modular workstation outlets. This product line, called the MediaFlex Modular Outlet Series, has been designed with the help of industrial designers as well as other professionals in the industry in order to combine flexibility, ease of use and high-tech aesthetics for work area installations.

MediaFlex Plates can be mounted over standard NEMA type outlet boxes and rings to provide support for a variety of MediaFlex Adapter and Inserts. The fully modular construction combined with the front access design provides extensive configuration flexibility for current and future network needs. MediaFlex Plates are available in Single gang and Double gang configurations.

AX101869 MediaFlex Double gang Plate

The Double gang faceplate comes with a stand-off ring included in the package. This ring allows for easy mounting with virtually any industry electrical box or mud/adaptor rings, therefore providing added installation flexibility.

Each plate has the capacity of up to 6 ports per Single gang and 12 ports per Double gang. MediaFlex Plates are available in gray, almond, black and "electrical" white to suit any office decor.

## Features & Benefits

- Front access design facilitates installation and ensures evolution
- Faceplate capacity of up to 6 ports per Single gang and 12 ports per Double gang, for optimum workstation outlet density
- Double gang plate comes with a stand-off ring for added installation flexibility
- No special tools required, therefore reduces installation time
- Sturdy design for excellent durability and network protection
- Labeling capability using large built-in labeling windows at the top and at the bottom, to facilitate outlet identification and ease network management
- High configuration flexibility for multimedia solutions
- Modern unique aesthetic design available in gray, almond, "electrical" white and black, to blend with any office decor.

## Application

- Telecommunications outlets in work areas.

## Technical Specifications

- Dimensions (H x W x D):
