

Eclipse Family of Enclosures

World Class Designs

Key Features

Modern Styling

Great for OEM's

Quarter turn Latches

Easy Access

FTC Style Lip

Protection against spills

Stainless Steel Hinges

Strong door support

The *Eclipse Series* of enclosures has recently been expanded to include the *Eclipse Junior*. The new EJ small wallmount/junction box series maintains the key elements that have made the original Eclipse wallmount series so successful.

All Eclipse products feature flush doors and sleek latching systems ideal for users needing a modern, appearance. The lip around the door openings are folded such that liquids are channeled away from the gasket surface for added protection against leakage.

The beige Eclipse has recently been upgraded to NEMA 4 and changed to include a removable gland plate on the bottom. This plate is similar to many European designs and allows for easier cable/conduit access modifications.

When a cost effective, good looking enclosure is required, look to the Eclipse and Eclipse Junior products from Hammond Manufacturing.

Eclipse Junior Series

Small Wallmount/Junction Box

Key Features
