Grip Tie Straps

The Grip Tie is a low profile, one piece fastening device. Constructed of polyethylene hook and nylon loop, laminated back to back, the Grip Tie features quick release for repetitive access to cable and wire. It can be opened and closed numerous times without failure. The Grip Tie is reusable, adjustable, releasable and easy to install. Its design provides ease of installation in tight areas such as telecommunications closets and will not get caught on other cables. The tie also will not cause damage to Category 5e and Category 6 cable or fiber optic cable since it cannot be over-cinched.

Available in rolls and straps in 6", 8", 11" and 15" sizes. The Grip Ties are available in a variety of colors and are versatile enough for applications ranging from network installations to bundling power cords. Grip ties are customizable with your company name (minimum quantities apply).

Drawing reflects the 8" size Grip Tie. The head contains an "x" cut out for screw applications.

Grip Tie Assortment Pack

For a variety of grip ties, an assortment pack containing the four different sizes and six different colors is available.

Product Selection

Part Number	Contents
GTASST	One (1) Orange 6" Grip Tie (GT.50X63) One (1) Yellow 6" Grip Tie (GT.50X64) One (1) Blue 8" Grip Tie (GT.50X86) One (1) Black 8" Grip Tie (GT.50X80) One (1) Green 11" Grip Tie (GT.50X115) One (1) Red 15" Grip Tie (GT.75X152)

Grip Tie Rolls

For custom-cut lengths, HellermannTyton offers the hook and loop strap on a five yard and 25 yard roll. Ideal for job site applications, desired lengths can be cut on the spot.

Product Selection

Part Number	Color	Length	Width	Pkg. Qty.
GT.75X1800	Black	180" (5 yds.)	0.75"	1 roll
GT.75X1802	Red	180" (5 yds.)	0.75"	1 roll
GT.75X1803	Orange	180" (5 yds.)	0.75"	1 roll
GT.75X1804	Yellow	180" (5 yds.)	0.75"	1 roll
GT.75X1805	Green	180" (5 yds.)	0.75"	1 roll
GT.75X1806	Blue	180" (5 yds.)	0.75"	1 roll
GT.75X6000	Black	600" (16.6 yds.)	0.75"	1 roll
GT.75X9000	Black	900" (25 yds.)	0.75"	1 roll
GT.75X9004	Yellow	900" (25 yds.)	0.75"	1 roll

Write-on Grip Ties

In situations where instant identification is needed, HellermannTyton provides Grip Ties with a white write-on area. This smudge-free surface is ideal for fast and easy identification with a ballpoint pen or felt-tip marker. The write-on area is approximately 3/8"(H) x 1-1/4"(W). It is positioned in the center of the black 6", 8" and 11" straps, as well as spaced every 12" on the Grip Tie rolls.

Product Selection

Part Number	Description	Strap Length	Strap Width	Pkg. Qty.
GT.50X60P2W	Black Grip Tie with White Write-On Area	6"	0.5"	10
GT.50X60C2W	Black Grip Tie with White Write-On Area	6"	0.5"	100
GT.50X80P2W	Black Grip Tie with White Write-On Area	8"	0.5"	10
GT.50X80C2W	Black Grip Tie with White Write-On Area	8"	0.5"	100
GT.50X110P2W	Black Grip Tie with White Write-On Area	11"	0.5"	10
GT.50X110C2W	Black Grip Tie with White Write-On Area	11"	0.5"	100
GT.75X1800W	Black Grip Tie Roll with White Write-On Area	180"	0.75"	1 Roll

Grip Ties For Plenum Applications

HellermannTyton now introduces UL94V-2 flame rated Grip Ties for use in air handling spaces. These Grip Ties are UL Listed in accordance with the National Electrical Code regulations. They are available in three lengths as well as a 180" roll.

Product Selection

Part Number	Color	Bundle Diameter	Tensile Strength	Length	Width	Pkg Qty.
GT.50X6MP2V2	Maroon	1"	40 lbs.	6"	0.5"	10
GT.50X8MP2V2	Maroon	1.91"	40 lbs.	8"	0.5"	10
GT.50X12MP2V2	Maroon	3.18"	40 lbs.	12"	0.5"	10
GT.75X180MV2	Maroon	1 - 5"	50 lbs.	180"	0.75"	1

Low Profile Grip Ties

HellermannTyton offers a new, lower profile self gripping hook and loop strap. Similar to the standard Grip Ties, they are easily wrapped around a bundle and fastened onto themselves for a secure hold. The head size is twice as wide as the strap, providing added strength. The modest thickness of the back-to-back hook and loop is ideal for small areas without the worry of snagging. The head contains an "X" cut out for screw mount applications. The low profile design is available in black in various lengths, as well as a 5 yard roll.

Product Selection

Part No.	Color	Length (L)	Width (W)	Head Length (A)	Head Width (B)	Pkg Qty.
GTLP50X60P2	Black	6"	0.5"	1.5"	1.0"	10

GTLP50X110P2	Black	11"	0.5"	1.5"	1.0"	10
GTLP75X1800	Black	180"	0.75"	N/A	N/A	1 Roll

Grip Tie Mounts

To secure bundles to flat surfaces, HellermannTyton offers a mounting base to be used with the Grip Ties. Available with or without adhesive, two sizes of Grip Tie mounts cover every size of Grip Tie. The mounts are manufactured from nylon 6/6 material and are UV-stabilized for outdoor applications.

Grip Tie Mounts

Cable Management Accessories

HellermannTyton manufactures a full line of quality cable ties in a wide variety of materials, colors, styles and sizes. Used to bundle and secure wire and cable, these cable ties are engineered and manufactured for maximum performance and quality.

HellermannTyton offers many options of cable ties. Whether the application demands extra strength, mounting, releasable, identification features or more, HellermannTyton has the cable tie to fit the requirement.

Standard Cable Ties

Standard cable ties include varying strengths and lengths for each individual application.

Mounting Cable Ties

The mounting cable ties are a one piece, all plastic tie for quick, simple cable mounting. Designed to fit several screw sizes and hole diameters, the mounting tie can be attached to equipment, walls, ceilings or other surfaces.

Cable Ties for Plenum Applications

HellermannTyton halar and U.L. Listed cable ties meet NEC regulations and can be used in applications where low smoke and low flame are a concern in air handling spaces. The raw material used to manufacture HellermannTyton halar cable ties is UL 94V-0 rated.

The halar ties come in a distinct color of red for easy identification. The U.L. ties are available in natural or red.

Cable Tie Tensioning Tools

HellermannTyton offers advanced, quality engineered cable tie tools suitable for most any cable tie application. Available in mechanical, power assisted, and automatic versions, HellermannTyton’s tools are industry preferred for their ergonomic designs, reliability, and ease of use.

HellermannTyton’s tools make it easier for the installer to apply cable ties, while maintaining correct tension and flush cut-off. Safety is enhanced, as the tools can eliminate the sharp edges of a cut-off cable tie.

Ranging from pocket sized tools to the state-of-the-art Mark 7 and Mark 9 tools, HellermannTyton offers mechanical tools which can be used with any HellermannTyton cable tie.

Mechanical Tools

Product Selection

Part Number	Description	Cable Tie Series	Pkg. Qty.
TWT1	TytonTwyster: Lightweight and economical twist tool. Offers speed and efficiency. Fits into a pocket. (color: orange)	T18 thru T50 Series	1
TWT2	TytonTwyster: Lightweight and economical twist tool. Offers speed and efficiency. Fits into a pocket. (color: blue)	CTT20 thru CTT60 Series	1
T150	T150 Tool: Heavy-duty installer controlled tool for use in the field. Pliers action provides mechanical advantage. Non-slip grip handles provide comfort & control.	T120 thru T150 Series CTT175 Series	1
T250	Same design features as the T150 tool, but can tension and cut-off a wider tie.	T150 thru T250 Series / CTT175 Series	1
MK7 Mil. Spec. MS90387-1	MK7: Durable and lightweight, this tool is user-friendly and adjustable, with top-of-the-line design features. Comes standard with non-slip grip handles.	T18 thru T50 Series CTT20 thru CTT60 Series	1
MK7HT	MK7HT: With the same design features as the MK7, this tool offers an increased tension range. Also comes standard with non-slip grip handles.	T18 thru T50 Series CTT20 thru CTT60 Series	1
MK9 Mil. Spec. MS90387-2	MK9: The MK9 has the same design features as the MK7 series tools. The MK9 accommodates a wider variety of sizes. Comes standard with non-slip grip handles.	T18R thru T250 Series CTT20 thru CTT175 Series EL-TY Series	1
MK9HT	MK9HT: The MK9HT has the same design features as the MK9, and offers an increased tension range. Also comes standard with non-slip grip handles.	T18R thru T250 Series CTT20 thru CTT175 Series, EL-TY Series	1

Contact HellermannTyton for more information on power assisted and automatic tools.

Cable Tie Mounting Base (MB Series)

Used in conjunction with cable ties, HellermannTyton mounting bases stabilize and secure wire and cable to most surfaces. Provided with or without adhesive, the MB series mounts are available in four sizes to accommodate T18 through T150 series cable ties. Insertion of ties can be made from all four sides. The MB series mounts are manufactured from white and black nylon 6/6.

Nail Clips

HellermannTyton nail clips are easy to use and highly reliable. The tough, precision engineered clips hold wire and cable securely in place. The nail is hardened for driving into wood, masonry joints, cinder block and mortar. The nails are also perpendicular to the work surface and are driven in straight, greatly reducing cracking. The nail clips do not have sharp edges, which reduce the chance of cutting cable jackets or sheaths and causing signal loss. Standard material: Tough, engineered plastic. The black clips are UV stabilized. Standard colors: white and black.

Masonry Clips

Masonry clips are a low cost, easy method for mounting station wire and PBX cable to cinder block, masonry, and other forms of concrete. Two steel pins are molded into them, except for M63-3, which is specially designed with only one pin for routing near corners. Standard material: High impact, flame retardant Lexan. Standard color: clear.

PicPac

The PicPac offers an easy method of identifying binder system groups in PIC cable through the use of Hellermann-Tyton striped and solid cable ties. Each PicPac contains 1,300 ties, including 50 each of the 24 most popular color combinations of striped ties, as well as solid red and solid black ties. All 26 different ties are packaged in easy open bags of 50.

PicPac cases are made from a heavy duty laminated vinyl which is suited to cold weather environments, resistant to cable gel, and can be cleaned inside and out. The reinforced pockets are interlined with foam cushion to ensure that ties remain tightly packed, even when only a few ties are left. Two convenient snaps allow the PicPac to be easily hung or folded.

PocketPac

Designed to fit in a shirt pocket, the PocketPac contains 50 of the most commonly used striped cable ties. The Pocket-Pac case is made of clear vinyl with a snap-lock top for easy access and identification.

Part Number	Description	Pkg. Qty.
T18RPICPAC	Vinyl case containing 1,300 ties including 50 each of the 24 most popular color combinations of striped ties as well as solid black and solid red ties.	1
T18RPOCKETPAC	Case containing 50 of the most commonly used striped ties (10 each of blue, orange, green, brown, and slate, all with white stripes).	1

U.S. Patent Numbers 4,993,669 and 5,102,075

EL-TY Strapping System

HellermannTyton's EL-Ty is a high strength strapping system used for supporting, securing, fastening, and spacing cable, as well as a variety of other applications requiring extra-long, extremely durable strapping.

The EL-Ty consists of a smooth strap and a separate, compact plastic head which encloses a stainless steel gripper. The stackable spacer works with the EL-Ty for a versatile, easy-to-install spacing system.

The EL-Ty has a minimum loop tensile strength of 250 pounds. The continuous operating temperature range is from -40°F to 185°F.

The EL-Ty complies with Bellcore Specification Reference TR-TSY-000789.

Materials: The EL-Ty strap and head are manufactured from black, acetal homopolymer with excellent dielectric properties, UV and chemical resistance, with a UL94-HB flame rating. It has been tested for excellent weatherability against moisture, sunlight and other environmental conditions.

Strap

The strap's smooth edges combined with its excellent UV, chemical, and moisture resistance make the EL-Ty a safe, strong, and labor-saving method of strapping and spacing.

Metal Pawl

The corrosion resistant, stainless steel pawl is contained within the head. The pawl grips the strap in an area protected from damaging sunlight, resulting in long lasting, secure installations.

Head

The black, plastic head is injection molded with serrations on the outside for good gripping and ease of installation. This unique, serrated design helps prevent slippage and allows for easier pull through of the strap during installation. The head is contoured for uniform load distribution on the contact surface.

Spacer

HellermannTyton spacers for the EL-Ty easily press together and are stackable for most any desired spacing applications. Designed for versatility, the strap can be inserted from all four sides, accommodating multiple bundle diameters. Material: UV stabilized, black polypropylene with excellent weatherability and UV resistance.

Product Selection

Part Number	Description	Pkg. Qty.
TELS-1	50 ft. of strap on reel dispenser and 30 heads.	1 Kit
TELS-H	Double entry, double locking heads.	25 Heads
TELS-13	10-13.5 in. of cable strap with 10 double locking heads.	10 Straps/Heads
TELS-27	10-27 in. of cable strap with 10 double locking heads.	10 Straps/Heads
TELS-5K	Kit containing 5 reels and 150 heads. Each reel dispenser contains 50 ft.	1 Kit
TELS-10K	Kit containing 10 reels and 300 heads. Each reel dispenser contains 50 ft.	1 Kit
TELS-SPK	Spacer designed for use with the EL-TY.	50
TELS-SPOOL	50 ft. reel	1 Reel

Aerial Support Spacer Tie

Aerial support spacer ties are one piece ties designed for standard spacing applications. These ties are pre-grouped in handy multiples of 5 to save installation time.

Materials: The strap is molded from special high impact nylon 6/6. The spacers are made from a high density outdoor black polypropylene. Both materials in this one piece tie offer resistance to sunlight, saltwater, and harsh chemical environments.

Product Selection

Part Number	Min. Tensile Unlocking Strength	Approx. Length	Approx. Width	Approx. Max. Diameter	Pkg. Qty.
TAS100RWS	100 lbs.	7.50"	.50"	1.75"	100
TAS100MWS	100 lbs.	10.00"	.50"	2.75"	100
TAS100LWS	100 lbs.	16.00"	.50"	4.50"	100

Place the spacer between the cable and strand. Wrap the tie strap around the cable and through the backside loop.

Pull the spacer snug to the cable and wrap the tie strap around the strand. Pass the tie strap through the locking buckle.

Electrician pliers may be used to snug the installation and snip tail.*

** As the cable and strand expand at different rates, the installation should not be tight but just snug.*

HellermannTyton aerial support spacer ties may be released by inserting a screwdriver under the locking ratchet of the buckle.

Convuluted Tubing

Convuluted tubing provides an efficient method of routing and protecting wire and cable, while reducing the chance of installation damage.

HellermannTyton's convuluted tubing offers excellent protection against vibration wear, water, snow, ice, and the effects of heat, cold, and sunlight on cables and wires.
