* indicates yellow label ** indicates red label *** indicates orange label # indicates green label ## indicates blue label

Due to very high bond adhesion of the 840 and 843 label materials only, more frequent cleaning of the label path may be needed to prevent adhesive buildup. Adhesive buildup can prevent the labels from exiting the printer properly. Some ink traces will adhere to the leading adhesive edge of some labels during printing, but are minor and should not detract from functionality. The caution does not apply to any other labels provided for this printer in the standard line of products.
