

VC10F150 Wirewound Resistors

(Home : Products)

VC Series, 150 Ohms, 10.0 W, Fixed, Wirewound Resistor

Actual product appearance may vary.

Description

The VC Series resistors are low cost, high quality, axial-lead resistors. The resistors have a ceramic core with a conformal vitreous enamel coating. Each resistor is clearly marked with resistance value and tolerance. Its small size makes it excellent for circuit board, point-to-point or terminal applications. The VC series is made in accordance to MIL-R-26 standards and is ideal for today's technology.

Note: Not suitable for high frequency applications.

Features

- Rugged vitreous enamel
- All-welded construction
- Low cost
- Uniformly tinned leads
- Meets or exceeds MIL-R-26 standards

Potential Applications

- Circuit boards
- Terminal boards
- Automated circuit board population
- Point-to-point wiring
- Load adjusters for power amplifiers
