## **MicroSmart Pentra**

#### Overview

IDEC strives to give you the best product for your dollar, and our controllers are just that! Offering speed, power, performance and precision are just the tip of the iceberg. The true benefit to using an IDEC controller is that it will cut your development time in half. These reliable controllers are easy to use, easy to maintain and easy to repair. No boards to build and maintain. No approvals to get. No spare parts to worry about. Just a simple, ready-made solution that won't require time you don't have to give. Instead, count on saving time with faster response, better throughput, reduced waste and less downtime.

NEW 12VDC

Demand for 12VDC control voltage has grown as solar and vehicle applications gain popularity and require PLCs to match their power sources. With abundant features and unparallel performance, the new 12VDC MicroSmart Pentra is the perfect choice for solar applications, including traffic signs, light controls, road sign controls, remote pumping and injections systems for oil & gas industries, remote water pumping stations and solar tracking systems. For vehicle applications, 12VDC MicroSmart Pentra can be utilized in utilities vehicle such as cement mixer, lift controls for handicap, lighting and designation signs for van and buses.

### **Key Features**

- Fast processing speed
- Support 32-bit data and floating point match
- 16-bit analog resolution
- Built-in Modbus RTU, ASCII and TCP/IP
- Field Upgradeable Firmware
- Up to 512 I/Os
- Configure up to 56 Analog I/Os
- Max. of 7 Communication Ports
- Embedded 100kHz high speed I/O
- Online Edit and Simulation Mode

## **Highlights of MicroSmart Controllers**

#### **Global Standards**

All MicroSmart controllers have regulatory agency certifications for the worldwide market including: cULus Listed for Class I Division 2 hazardous locations, CE compliant, and certified for marine use by Lloyd's Registry.

#### Compatibility

For added convenience, the same expansion I/O modules and accessories can be used on both the MicroSmart and MicroSmart Pentra controllers. In fact, both controllers also share the same architecture, instruction set and programming software. The use of a single platform for all IDEC

PLCs means you won't have to reprogram or learn a new system to alternate from one to another.

Simple Programming

Relax. Programming doesn't need to be hard or take a lot of your time. With IDEC WindLDR Software, you can configure, modify and monitor your MicroSmart programs with ease. This powerful and intuitive software makes it simple to get your system up and running. Now supporting Online Editing and Simulation mode.

Compact and Modular Design

Every CPU module comes equipped with embedded I/O points or you can conveniently add additional snap-on expansion modules for up to 512 I/Os based on your system requirements. All IDEC controllers are DIN-rail and panel mountable.

Customizable Structure

Feel the freedom. The ability to customize for the functions you need allows you to create the perfect system for your applications. Add an HMI module, a Real Time clock module or even an optional EEPROM module.

## **MicroSmart Pentra Series**

## **C5A-C10R2C**

MicroSmart Pentra the fastest MicroPLC in its class! Available in either Slim/Book Style and All-In-One ype]

## **Product Specifications**

PLC Product Category	CPU Unit
<b>Operating Voltage</b>	24V DC
High Speed Counter(s)	50kHz, 5kHz
High Speed Counter Input Type	e Sink, Source
RS485 Ports	1, Separate Module Required
<b>On Board Communication Port</b>	1 RS-232
<b>Memory Card Slot</b>	Yes
On Board Input Type	Transistor Sink, Transitor Source
On Board Output Type	Relay
I/O Expandable	No
Maximum I/O	10
On Board I/O	6/4
<b>Real Time Clock</b>	Yes, Separate Module Required
<b>Connector Type</b>	Screw Terminal
Notes	MicroSmart All-in-One Brick Style PLC. See catalog pages for further information.
I/O Range Requirement	24 or less
<b>Floating Point Math</b>	Yes
<b>Data Processing</b>	32 Bit
Max. Communication Ports	1, 2

All-in-One						
Appearance	Part Number	Power	I/O Points	Input	Output	Expandability
	FC5A-C10R2C	24V DC	- 10 (6 in /1 out)		Relay	
	FC5A-C10R2	100-240V AC	- 10 (6 in/4 out)			N1/A
	FC5A-C16R2C	24V DC	16 (9 in/7 out)			N/A
	FC5A-C16R2	100-240V AC		24V DC (Sink/Source)		
	FC5A-C24R2C	24V DC				
	FC5A-C24R2	100-240V AC	24 (14 in/10 out)	IU out)		4 expansion modules)

#### **MicroSmart Pentra CPU Part Numbers**

Slim

Appearance	Part Number	Power	I/O Points	Input	Output	Expandability	
	FC5A-D16RK1		10 (0 in (0 aut)		6 Relays, 2 Transistor Sink	496 Maximum I/O

**Communication & Networking** 

#### **Programmable Logic Controllers**

#### **General Specifications**

Rated Power Voltage	24V DC
Allowable Voltage Range	20.4 to 26.4V DC
Current Draw	70 mA
Allowable Momentary Power Interruption	10 ms maximum
Dielectric Strength	500V AC, 1 minute
Insulation Resistance	10 $M\Omega$ minimum (500V DC megger)
Noise Resistance	DC power terminal: 1.0 kV, 50 ns to 1 µs Ethernet cable: 0.5 kV, 50 ns to 1 µs (coupling clamp)
Inrush Current	4A maximum
Operating Temperature	0 to 55°C
Storage Temperature	-40 to +70°C (no freezing)
Relative Humidity	10 to 95% (no condensation)
Pollution Degree	2 (IEC 60664-1)
Corrosion Immunity	Free from corrosive gases
Degree of Protection	IP20 (IEC60529)
Vibration Resistance	When mounted on a DIN rail: 5 to 9 Hz amplitude 3.5 mm 9 to 150 Hz accelaration 9.8 m/s <sup>2</sup> (1G) 2 hours in each of 3 axes
Shock Resistance	147 m/s <sup>2</sup> (15G), 11 ms duration 3 shocks each in 3 axes
Weight (approx.)	150g

nterface Speci	fications				
Communication	RS232C <=> Ethernet conversion function Electrical characteristics: Complies with IEEE802.3 Transmission speed: 10BASE-T/100BASE-TX (Not CE compliant) Communication protocol: IP/ICMP/ARP Ethernet protocol: TCP/SMTP/HTTP/Telnet No. of TCP connections: 1				
Ethernet Specifications					
Serial Interface Specifications	Electrical characteristics: EIA RS232C Transmission speed: 9600 to 115200 bps Synchronization: Asynchronous Communication protocol: Full duplex Transmission control: RTS/CTS, XON/OFF, None				
Connection Method	Ethernet interface: RJ45 Serial interface: Mini DIN 8-pin connector Cable Part No.: FC4A-KC3C				
Major Functions	Remote maintenance: Uploading, downloading and moni- toring using WindLDR via Ethernet				
	Web server: Configure the web server unit using Internet Explorer etc. Reading and writing PLC operands using Java applet. Web file area: 512 KB Compliant browser: Internet Explorer 6.0 or higher, Netscape Navigator 7.2				
	Ethernet user communication: User communication using Ethernet Message transmission: Registered outgoing message 32 message types, 63 characters maximum per message, 2 email addresses, 64 address characters maximum				
Optional	Utility CD: Configuration file, PLC operand monitor sample programs, sample program configuration instructions, instruction manual (English/German/Spanish/Japanese/ Chinese)
