New portable, affordable heat shrink tube, wire wrap, and professional label printer all in one unit. Prints on polyolefin heat shrink tube and polyester wire and cable wrap materials and industrial polyester adhesive-backed tapes. Printer runs on 6-AA batteries (included) or AC power adapter (included) that meets new California Electrical Energy Reduction requirements effective 1 July 2006. Printer has molded handle to make portability and field operation easier. The 2012XLST features a larger QWERTY style keyboard and bigger LCD display panel for easier text and number entry and visual editing. Contains industrial symbols library, 14 fonts, 6-Bar Code formats, automatic power off, 8-lines of text or numbers and memory back up. Print quality is 180 dpi thermal transfer imaging for all-weather durability on heat shrink tube, wire wrap or professional labels. Printer includes the new

label corners on-demand providing greater peeling protection and more professional looking labels.
