**3400 Series:** 7/8" Turns-counting Dial; **20 turn calibration**. Anodized aluminum case with plastic scales and knob. This is our most economical turnscounting dial. Made with the same commitment to quality, this dials boasts features from our more expensive series, yet is available for much less. Positive action brake is located on the side. Turns-counting digit appears in the window as the dial is rotated. Available with clear or black base, knob and scales are black with white markings.
