

SVGA Cable, HD15 Male / Male, 25.0 ft

Features for this product

- Connection of a signal generating device (CPU) and a display device (Monitor)
- Three 75 Ohm coaxial cables assure high quality video signal
- Fully molded backshell construction is highly durable
- Braid and foil shielding minimizes EMI
- Available in 9 standard lengths from 3 to 200 feet.

These premium SVGA cables feature three 75 Ohm coaxial cables to assure high quality video signal transmission. The fully molded backshells of the HD15 connectors provide a very durable assembly. Available in 9 standard lengths from 3 to 200 feet.

L-com vs. Our Competitors

Superior performance requires superior construction. As the connector comparison diagrams indicate, not all cables are created equal. The features beneath the surface are the reason many OEMs have chosen L-com as a key supplier of critical cabling. Superior connector termination utilizing an all steel box provides 360° shielding and reliable strain relief. The bulk cable is double shielded and utilizes 3 mini true 75 Ohm coaxial lines for unmatched video performance.
