Item # W49RE1C2VF-6DC-SCO, 49 PCB Mount Enclosed Relay/SPDT 3 - 10 Amp Rated

49 PCB Mount Enclosed Relay/SPDT 3 - 10 Amp Rated

Electronic control circuits built on PCB's demand relays that can be populated with the same machinery currently used in the production lines. The Magnecraft SIPS and DIPS are built in small industry standard package styles that do not require unique machinery to populate. The SIPS and DIPS can even withstand a lead-free solder re-flow process so a pin-thru-paste application is possible.

- Up to 1/3 HP 120VAC Switching
- UL Recognized
