Insertion Extraction Kit

WK-7 kit includes DIP IC extractors and inserters to accommodate all IC's from 8 to 40 pins.

All tools that engage conductive surfaces are CMOS safe and include grounding lugs where appropriate. The kit consists of extractors EX-1 for 14-16 pin devices, and EX-2 for 24-40 pin chips, plus inserters MOS-1416, MOS-2428, and MOS-40 for 14-16, 24-28 and 36-40 pin IC's respectively.

Kit Includes:

- MOS-1416 Insertion Tool (14-16 Pins).
- MOS-2428 Insertion Tool (24-28 Pins).
- MOS-40 Insertion Tool (36-40 Pins).
- EX-2 Extraction Tool (24-40 Pins).
- EX-1 Extraction Tool (8-24 Pins).
