| Part Number | Description |
|-------------|--------------------------------------|
| PB4H | 4-Channel Rack With Header Connector |

Description

The PB4H I/O mounting rack features a 50-pin header connector for easy interface to computer I/O ports via 50-conductor ribbon cables. The 50-pin connector also allows direct connection to Optomux (B1), Pamux (B5), and Mystic (B100) protocol brain boards. Any combination of Opto 22 standard (Generation 1) digital 5-Volt logic I/O modules can be used with PB4H.
