

KT 8 Professional Cutter

Part number: 900265  Technical

Description

Precise and professional cutter for solid, stranded and flexible cables up to AWG 6 (16 mm²)

Features

- Textured handles & hand-stops prevent slips
- Blades outlined for two conductor size ranges

Advantages

- Precise and effortless cuts
- Perfect cutter for coax and UTP cables; doesn't deform cable
- Blades can be sharpened with a round file
- Not for use on steel, aluminum alloys or hard-drawn copper cables
