

# Protective Eyewear For High Impact\* Safety Plus Style

Safety Is Always First, Style A Close Second

The new line of 3M™ Protective Eyewear gives wearers the style they want with the safety they need. These new products feature shatter-resistant polycarbonate lenses with a special anti-scratch coating. This means clearer vision and longer use. Plus they provide 99% UV protection that's essential for outdoor workers.

Workers can select the frame and lens for the type of work they're doing and the look they want. Each pair has a lightweight, transparent wraparound frame for extended wear and greater comfort.

## Features/Benefits

- Wraparound style features a polycarbonate frame, soft nosepiece and soft temples with rubber tips for long wear time. Also provides both front and side protection.
- Three lens options: clear, smoke and mirrored (for indoor/outdoor use).
- 1750, 1751 and 1752 have soft temples and a gel-like nosepiece for exceptional comfort.
- Shatter-resistant, polycarbonate lenses for extra protection. Compliant with ANSI Z87.1-2003 for limited eye and face protection against flying particles.
- Lenses have an anti-scratch coating for longer use.
- 99% UV protection for outdoor use.
- Each pair has a static UPC sticker for easy inventory management.

3M™ Protective Eyewear

## Suggested Applications

- Grinding
- Sanding
- Metal fabrication
- Woodworking
- General industrial uses where potential eye hazards exist

\* Meets ANSI Z87.1-2003 Standard for high impact protectors.

# 3M™ Protective Eyewear (continued)
