The GPMP Series are universal input AC/DC power supplies with power factor correction (PFC) with up to 900 Watts ouput power. The GPMP product incorporates true inhibit, power fail alarm, power good signal and fan control. The series is approved to EN60601-1 and EN60950-1 to reduce design-in time and end system compliance costs

All specifications are typical at nominal input, full load at 25 °C unless otherwise stated
