

## Video Digital Recorder (VDR)

### EZVR4

*the easiest to use video recorder in THE WORLD!*

#### Key Features

**EZ Record:** Using the front panel pushbuttons, select 24, 72, 240, 480 or 960 hours recording time. The EZVR4 does the rest. You do not have to worry about frames per second, quality level, or compression settings.

**Auto Record:** If you do nothing more than plug the EZVR4 in and walk away it will automatically start recording using factory pre-sets. As close to fool-proof as you can get

**EZ Playback/Search:** With just a touch of the front panel pushbutton.

**EZ Backup:** Using a USB Flash Drive or USB HDD via a front panel pushbutton. Player software and .avi conversion software is automatically downloaded eliminating the need for law enforcement agencies to load software onto their PCs.

The EZVR4 features a simple **2-page menu structure** (in English, Spanish and French) Use of these menus is optional, other than setting the time and date. We have programmed in the most common and useful functions as factory defaults.

- 4 BNC Camera Inputs / 1 BNC Video Output
- 4 Alarm Inputs / 1 Alarm Output

#### *Free yourself from network neurosis!*

Speco Technologies' new VDR features **NO NETWORKING!**

Stop selling, installing, programming and maintaining a feature that your customers most likely do not need or want. Programming a VDR takes minutes instead of hours. Time saved or more hassles?

The choice is yours.
