High Powered, Portable Amplifier with VHF Microphone System & CD Player

PAW-80

(rear of unit)

FC

Features

Speco Technologies' high-powered, VHF microphone system, portable amplifier offers performance, convenience and value for all your off-site meetings. Featuring 80 watts of power, the PAW-80A lets the communicator connect with audiences of up to 2,000+ people while coming complete with two ¼" microphone connectors and ¼" auxiliary in and out connections.

With compact, state-of-the-art "Class D" amplifier technology, this lightweight amplifier is easy to transport and comes with a six-function CD Player for pre- and post-presentation entertainment. The presenter can have their choice of using a handheld OR lapel VHF wireless microphone (both included) on this single channel unit. An internal, rechargeable battery will allow 3+ hours of cordless use.

All of these features comes with one of the most aggressive price points in the industry for a mobile amplifier and a 5-year limited warranty which conveys why Speco Technologies is one of the best values for quality products in the marketplace.
