ULTRA HEAT HOT AIR TOOLS

UltraHEAT heat guns are available in two different versions; a dual temperature model for general use and the fully featured SV803 that allows the user to control temperature and airflow. Both models are lightweight and easy to use, offer quick heat-up and ultra quiet operation. A variety of accessories and kit presentations make UltraHEAT extremely versatile and a great value for most intermittent applications.

UltraHEAT™

SV 800 Dual Temperature Heat Gun

Dual Temperature:	Low: 600°F High: 950°F
Cool Air Stage:	Enables rapid cool down
Power Cord:	Rubber construction, double insulated for safety
