

## Part Number Search Results

### Information about your part number search

The number you searched for is a valid Schneider Electric part; however, it is not currently supported in our online searchable database of part numbers. We are constantly adding new products to this database. If your information requirements are more general, searching the site by product type, keyword, or a general description may provide you with the information you need.

For further information regarding this specific part number, please contact your local [Field Sales Office](#), [Distributor](#), or the Schneider Electric [Customer Information Center](#) at 1-888-778-2733.

### We based this information on the following matches to your query:

Part Number	Description
XUN0ANSNM12	Photoelectric Sensor 24VDC NPN NO/NC
