

T&B° Fittings

T&B Catalog Number: LT975P UPC Number: 78621045073

Description: 3/4" Non-Metallic liquidtight Bullet®

-90°. For use with liquidtight non-metallic Type B conduit or liquidtight non-

metallic tubing.

Status: Active

Features	
i Catal 63	Outside surface has friction reducing ridges.
	Inner surface teeth bite into conduit or tubing to en-
	hance clamping and sealing action.
	Fitting ferrule designed to accept variations in conduit sizes and field conduit cuts.
	Smooth ferrule profile reduces friction to ensure a tight conduit-to-fitting seal.
Application	
	The Bullet™ meets performance requirements when terminating Type B liquidtight non-metallic conduit or flexible non-metallic tubing to a box or enclosure with knockout opening or threaded hub.
General	
Trade Size (inches)	3/4
Material	Thermoplastic
Dimension Information	
Dimension A (inches)	0.582
Dimension B (inches)	1.790
Dimension C (inches)	1.740
Dimension D-Minimum Throat (inches)	0.740
E- NPT Thread (inches)	3/4-14
Dimension F (inches)	2.212
A (mm)	14.78
B (mm)	45.47
C (mm)	44.20
D (mm)	18.8
F Approx. (mm)	56.00
Packaging	
T&B Inner Pack	10
Package in Units	50
T&B Sold in UOM	Each
T&B Weight Per UOM	17 lbs. per 100
Application Support	
T&B Instruction Sheets	ta00998-tb2
Guide to Nonmetallic Conduit Application	sAvailable on Website
XTRAFLEX System Specifications	Available on Website
Notes	
*Note	Suitable for hazardous locations; Class I Div 2; Class II Div 1 & 2; Groups E, F, G; Class III per N.E.C.; Article 501-4, 502-4 and 503-3

XTRA FLEX® System -

Conduit, Tubing, Fittings for Non-Metallic Liquidtight Conduit

The BULLET® non-metallic liquidtight fitting — easy to use, built to take it!

- Outside surface has frictionreducing ridges
- Inner surface teeth bite into conduit or tubing to enhance clamping and sealing action
- Fitting ferrule designed to accept variations in conduit sizes and field conduit cuts
- Smooth ferrule profile reduces friction to ensure a tight conduit-to-fitting seal
- Friction-reducing ridges and teeth provide a true double seal and high pullout resistance
- Elongated gland nut offers additional strain relief for 90° pull and easy hand grip
- Rugged low-profile nonmetallic body and gland construction provides space savings
- Captivated sealing 0-Ring features predetermined compression to provide a reliable seal at enclosure
- Steel locknut firmly secures fitting to box or enclosure

Plastic Bullet^o Liquidtight Fittings for T&B LTC Non-Metallic Liquidtight Conduit Type B and T&B EFC Flexible Tubing

This engineering breakthrough meets the demand for a tough, reusable, non-metallic liquidight fitting for use with XTRA FLEX® Type B conduit or flexible tubing. The BULLET® non-metallic fitting provides a reliable liquidight seal that combines high pullout resistance and ease of installation.

Engineered to meet your needs.

The BULLET® non-metallic fitting meets your performance requirements when terminating Type B liquidtight non-metallic conduit or flexible non-metallic tubing to a box or enclosure with knockout opening or threaded hub. Fittings meet the watertight requirements for NEMA Type 4 and Type 6 enclosures and conform to UL514B and CSA No. 22.2 #227.2 specifications.

Ease of installation.

Installations can be performed quickly and easily because BULLET® liquidtight fittings can be installed without disassembly. BULLET® nonmetallic fittings are resistant to numerous caustics and solvents. The BULLET® fitting is economical because it can be used over and over again without sacrificing the quality of the original seal. When used with the XTRA FLEX® raceway system, you can meet most machine or industrial requirements where liquidtight protection is needed.

Corrosion resistant. Built to take it.

The BULLET® liquidtight fitting is manufactured from weather-resistant thermoplastic materials and is suitable for indoor or outdoor corrosive environments. The BULLET® fitting is resistant to detergents, cleaners, oils, sanitizers, paints, cutting fluids and wire pulling compounds — just about any liquid usually found in industrial, plant or marine environments. It also surpasses industry standards for cold impact and simulated hammer bloves.
