Ty-Duct™ Advantages

- Two-point contact design enables the cover to be easily installed in the right place with less force
- **Co-extruded cover** ensures the cover will stay in place and will not slip once installed
- Smooth corners and edges will not damage or disfigure wires
- Flush cover design enables greater capacity and sits flush with duct side wall
- Triple restricted slots speed installation while enabling better wire retaining in duct
- Dual score lines Upper score line allows fingers to be broken out without tools and the lower score line allows side wall sections to be removed easily
- V-shaped slot lead-in funnels wires into slot for easier wire insertion
- Staggered mounting hole pattern (larger widths)
- **Universal Mounting Clip** secures into the base to perform several tasks:
 - Enables divider to be snapped into base
 - Slots in the Universal Mounting Clip allow cable ties to pass through to hold wire bundles in place
 - 2 slot sizes on Universal Mounting Clip accommodate traditional nylon cable ties or hook and loop fasteners
- Slotted and Solid Divider accommodates various wiring applications
- Grooved cover provides better grip for removal and placement of cover onto base
- Writable protective film on covers protects from work site scratches and scuffs and enables temporary marking or labeling

- PVC construction is excellent for flame retardancy
- North American and DIN standard mounting holes
