## Ty-Duct<sup>™</sup> Advantages

- **Two-point contact** design enables the cover to be easily installed in the right place with less force
- **Co-extruded cover** ensures the cover will stay in place and will not slip once installed
- Smooth corners and edges will not damage or disfigure wires
- Flush cover design enables greater capacity and sits flush with duct side wall
- **Triple restricted slots** speed installation while enabling better wire retaining in duct
- Dual score lines Upper score line allows fingers to be broken out without tools and the lower score line allows side wall sections to be removed easily
- V-shaped slot lead-in funnels wires into slot for easier wire insertion
- Staggered mounting hole pattern (larger widths)
- **Universal Mounting Clip** secures into the base to perform several tasks:
- Enables divider to be snapped into base
- Slots in the Universal Mounting Clip allow cable ties to pass through to hold wire bundles in place
- 2 slot sizes on Universal Mounting Clip accommodate traditional nylon cable ties or hook and loop fasteners
- Slotted and Solid Divider accommodates various wiring applications
- Grooved cover provides better grip for removal and placement of cover onto base
- Writable protective film on covers protects from work site scratches and scuffs and enables temporary marking or labeling
- Embossed holes enable Universal Mounting Clips to be installed, even after the duct has been riveted to the panel
- **PVC construction** is excellent for flame retardancy
- North American and DIN standard mounting holes

## Thomas & Betts 93

## **Ty-Duct**<sup>™</sup> Wide Slot Wiring Duct

# Greater sidewall rigidity with increased versatility!

#### Solid Wall Duct-PVC

- Wide fingers and slots increase rigidity and enable insertion of bundles
- Non-slip cover and resists vibration
- Rounded edges keep hands and wires free of abrasion
- V-shaped slot lead-in enables easier and faster wire installation
- Dual score lines are designed to yield clean breakoffs at the base of the slot and the duct
- Restricted slot design makes sure that wires are held with or without the cover inserted
- Flush cover attaches flush with sidewall for finished look
- Improved flush sidewall and cover style for greater wire capacity

Standard lengths are 6 feet.

Catalog Number must be completed by adding suffix G for Gray, W for White, I for Intrinsic Blue, B for Black. **Example:** TY75X1WPG6 is a .75" x 1" wide slot gray duct.

To order duct without mounting holes, add suffix NM to catalog number. **Example:** TY75X1WPG6NM is a .75" x 1" wide slot gray duct with no mounting holes.

To order Adhesive-Backed Duct, add suffix A to Catalog Number.

**Example:** TY75X1WPG6A is a .75" x 1" wide slot gray duct with adhesive backing. Shelf life for adhesive is 1 year.

PVC vinyl duct is UL® Recognized N, CSA Certified and CE Compliant.

The above information is believed reliable. The user should, however, check the applicable specifications to verify values.

#### **Rigid Polyvinyl Chloride (PVC)**

- · General-purpose material for indoor applications
- UL flammability rating of V-0
- UL94 recognized for use in temperatures up to 50° C (122° F)
- · Economical wiring duct material

#### **Halogen Free**

- For use in halogen-free or high-temperature applications
- UL flammability rating of V-1
- UL94 recognized for use in temperatures up to 95° C (203° F)
- 20% lighter than PVC
