

### VPP36-560

#### Electrical Specifications (@25C)

1. Maximum Power: 20.0VA
2. Secondary: Series: 36.0V CT@ 0.56A  
Parallel: 18.0V @ 1.12A
3. Voltage Regulation: 25% TYP @ full load to no load
4. Temperature Rise: 30C TYP (45C MAX allowed)
5. Insulation Resistance: 100MΩ

#### Construction:

Dual bobbin construction with an insulated shroud, both made of a high temperature material that exceeds UL flammability requirements.

#### Safety:

These units are designed with 4000VAC isolation between the primary and secondary, and also, between each winding and the core. Since the dual bobbin construction effectively reduces capacitance, electrostatic shielding is not required. World Series Transformers are designed and manufactured to meet the following agency approvals:

#### Agency File:

UL: File E53148, UL 506, General Purpose.  
CSA: File LR 37220, C22.2 NO. 66, General Purpose.  
VDE: File 18786-3390-0001, VDE/EN 60 950, (IEC950) information Technology Equipment.

#### A. Dimensions: Units: In inches

A	B	C	D	E	F	G	H
1.500	1.625	.187	.400	.400	1.875	2.250	1.460

B. PIN DIM. : 0.036 SQ

C. WT Lbs. : 0.90

D. Mounting Holes: .112 dia. x 2.

E. Schematic Diagram:

**RoHS Compliance:** As of manufacturing date February 2005, all standard products meet the requirements of 2002/95/EC, known as the RoHS initiative.

## PC Mount: World Series™

### :: Description

Triad PC mount World Series transformers incorporate a dual bobbin construction with an insulating shroud, both made of a high temperature material that exceeds UL flammability requirements. These units are designed with very high isolation between the primary and secondary, and also, between each winding and the core. Since the dual bobbin construction effectively reduces capacitance, electrostatic shielding is not required. PC mount transformers are available with ratings from 2.5 VA to 56.0 VA and have dimensionally accurate pin placement for through hole PC board mounting. All World Series transformers meet U.S. and International standards including CSA, IEC, VDE and UL requirements, and therefore have universal application.

### :: Specifications

Primary: 115/230 V, 50/60 Hz | VA Ranges: 2.5 to 56.0

### :: World Series
